

2026 LOGO GUIDELINES

November 2025

PRIMARY LOGO

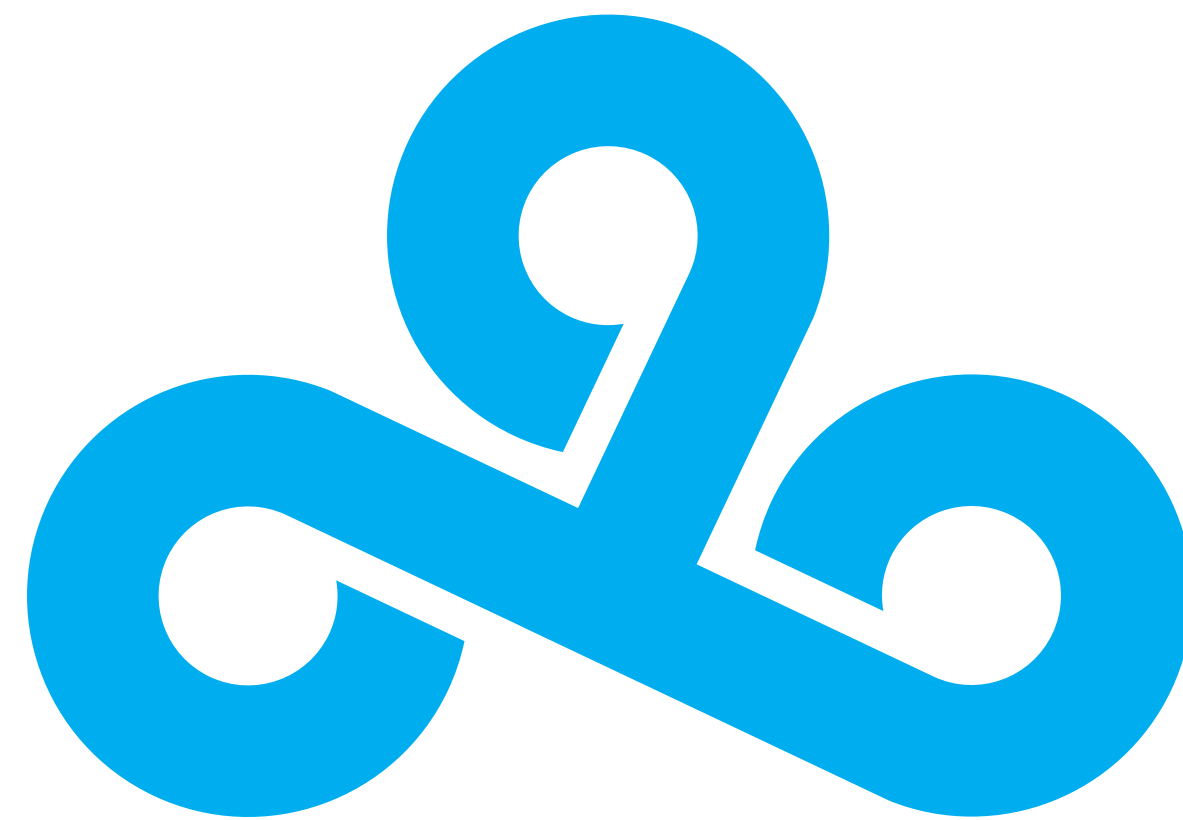

The Cloud9 is a simple yet strong graphical element, and has become one of the most recognizable logos in esports today.

Context and environment will demand different preferred usage of the main logo. It is imperative to utilize the correct form when the situation calls for it.

We highly prefer the use of the icon only in endemic settings, such as VCT, LCS, Blast, IEM, etc., as we are already an established and recognized entity.

We prefer use of the stacked logo with full wordmark in all non-endemic settings for additional brand clarity.

PRIMARY LOGO

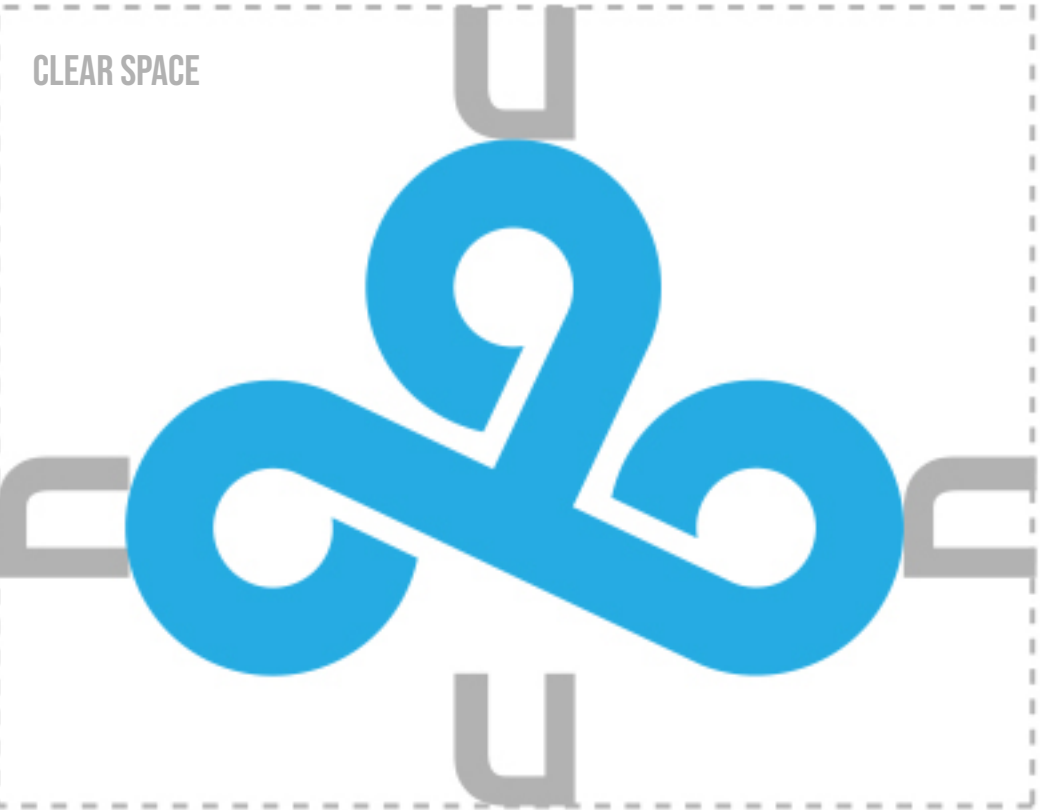

As mentioned previously, the Cloud9 is a simple yet strong graphical element, and is our face to the outside world. It's bold, yet elegant form has become one of the most recognizable logos in esports today.

We highly prefer the use of the icon only in endemic settings, such as VCT, LCS, Blast, IEM, etc., as we are already an established and recognized entity.

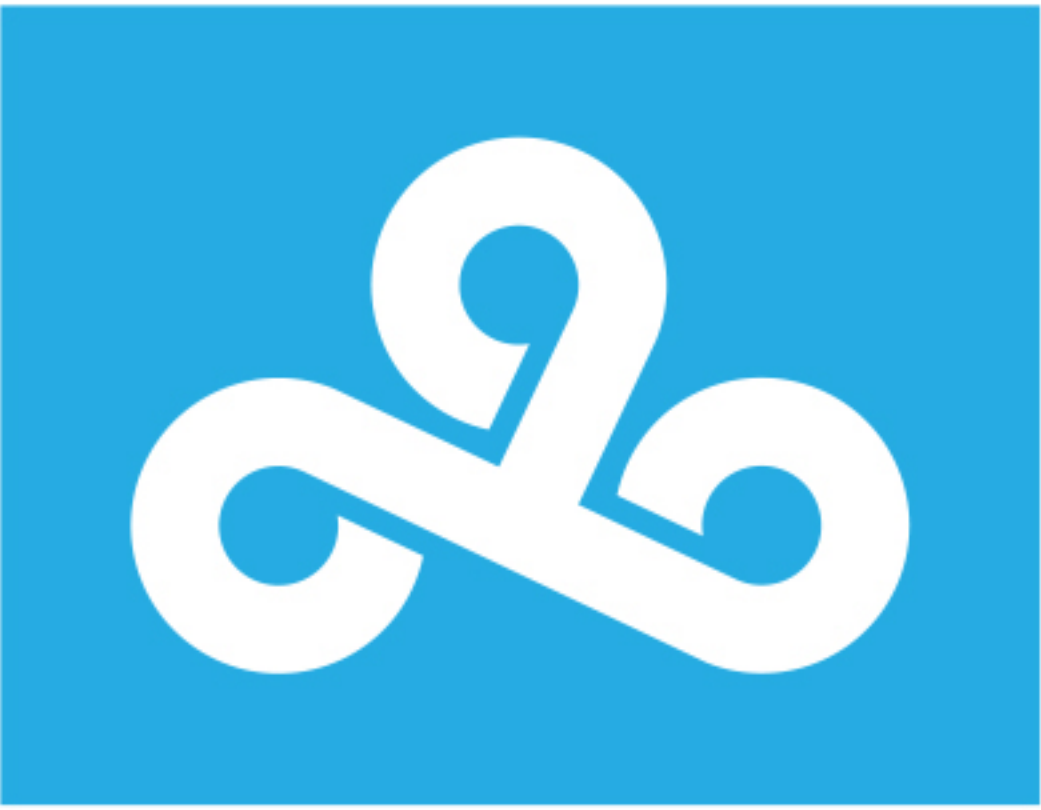

To ensure the legibility of the Cloud9 logo, it must be surrounded with a minimum amount of clear space. It is to remain free of trim or surface edges, typography, rule lines, folds or any graphic elements that may detract attention and lessen the icon's overall visual impact.

PRIMARY LOGO + ALTERNATIVES

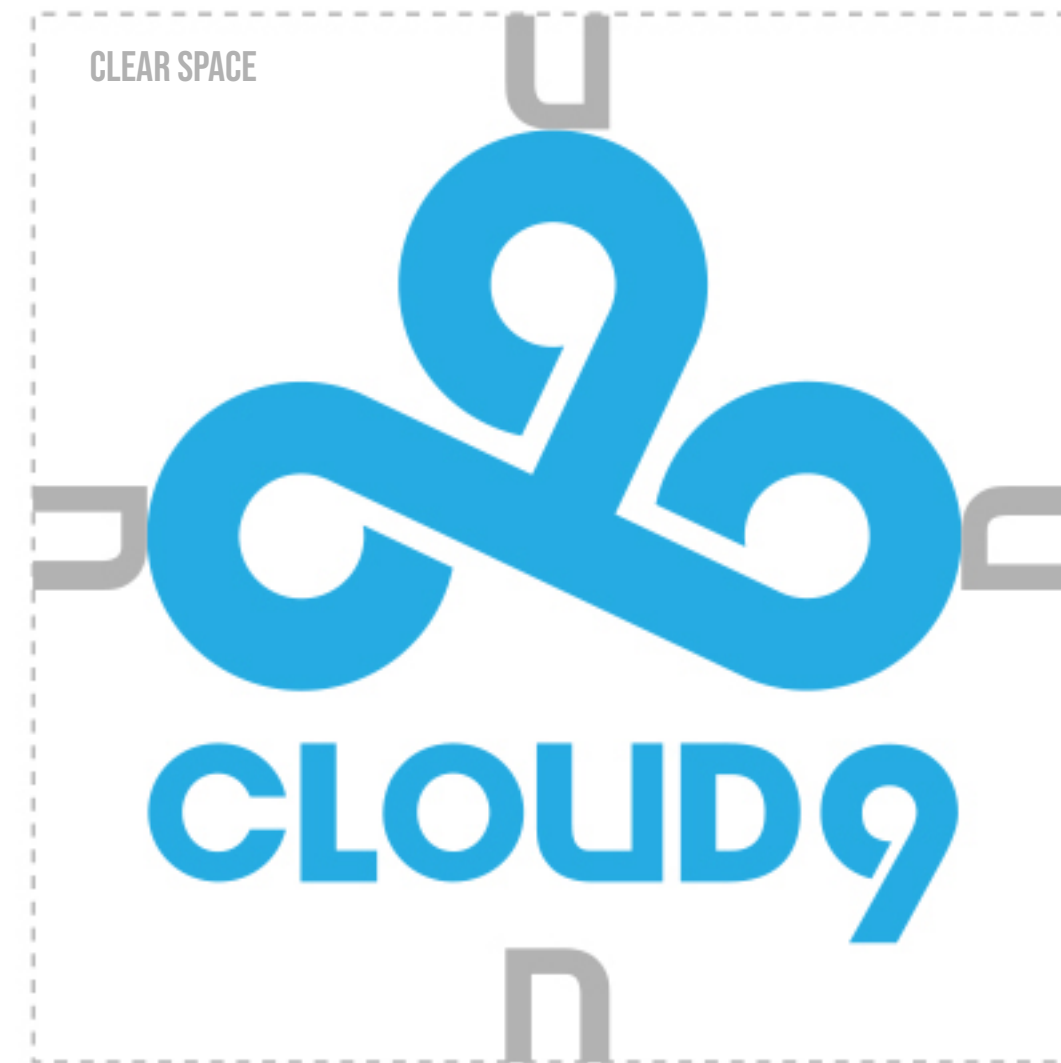

A return to form, the original stacked logo is made its triumphant return as a main identifier in 2023. Mixing the old with the new, the OG stacked logo will feature some modern updates to bring it in line with what we've been doing in more recent years. Official/external use will see it presented in one color, losing the gradient applied when it initially debuted in 2013.

We prefer use of the stacked logo with full wordmark in all non-endemic settings for additional brand clarity.

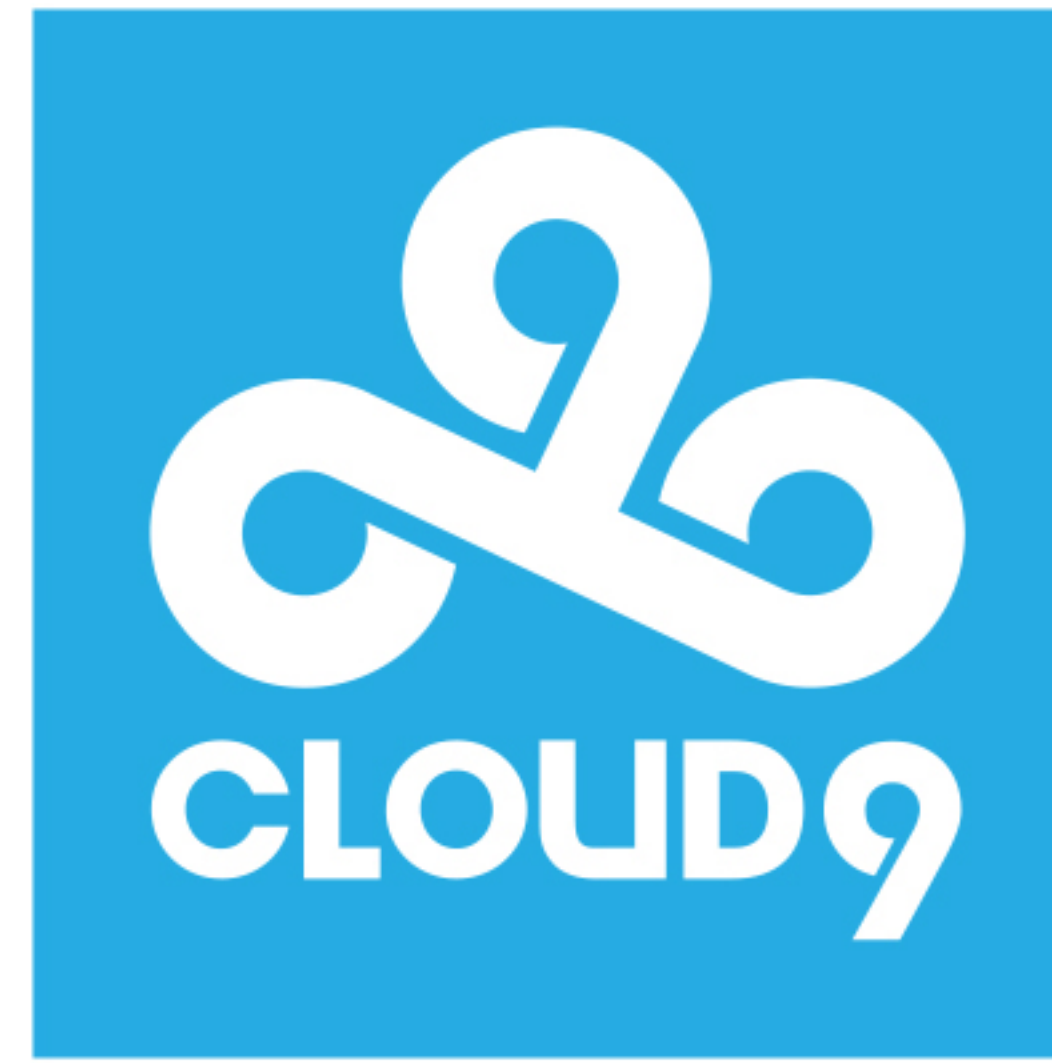

As situations demand, the horizontal alternate may be used.

IMPROPER LOGO USAGE

PLEASE DO NOT:

- Utilize outdated versions of the logo - i.e. logo with gradient, two color logo
- Attempt to re-create any portion of the logo
- Rotate, skew, redraw, re-proportion, or otherwise alter or distort the logo or its elements in any way
- Reproduce the logo in colors other than those suggested in this document
- Place the logo on a busy background that makes it difficult to read
- **Use solely the wordmark without explicit approval from the brand team**

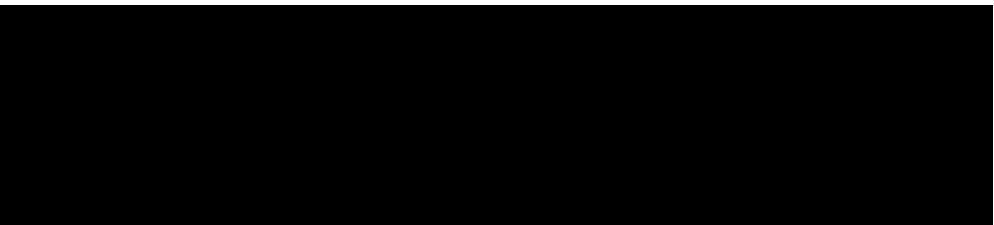

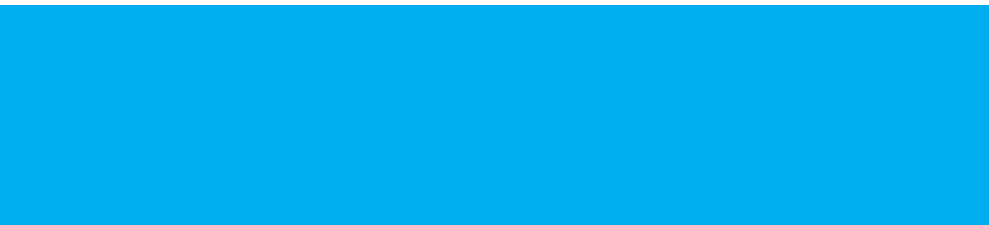

MAIN COLOR PALETTE

Our main color palette consists of the signature Cloud9 blue and white combo with support from a tertiary black to dark grey where necessary to help increase contrast.

For the best print quality reproduction and worldwide consistency, Cloud9 colors should be printed as solid PANTONE® colors. If a PANTONE color is not available, a four-color process match may be appropriate. (Reach out to the team if you have questions.)

Adjustments may be made for packaging, POP and collateral to compensate for paper stock and other treatments; the goal is always to maintain the visual integrity of our brand colors.

PRIMARY TEAM COLORS:

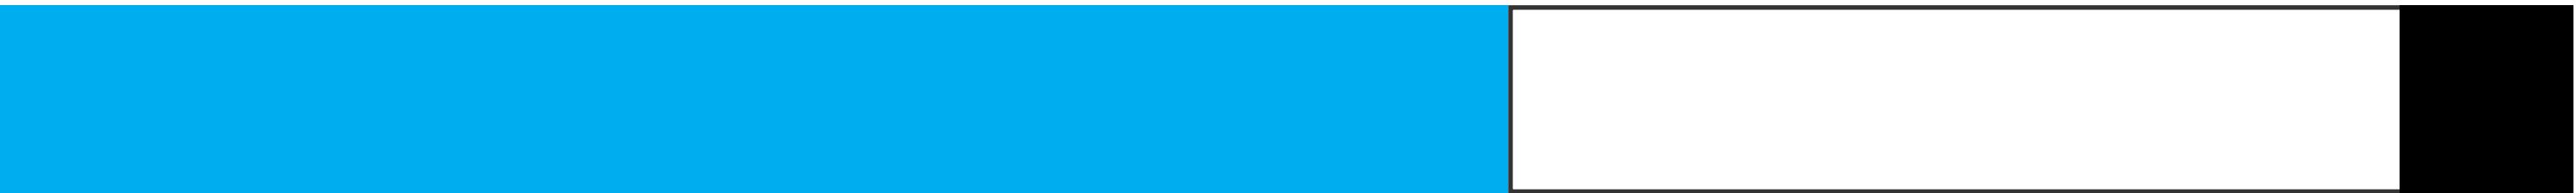

C9 BLUE
#00AEEF

WHITE
#FFFFFF

BLACK
#000000

COLOR DISTRIBUTION:

FOR PRINT ONLY

PANTONE 2995 C
